Summary and Recommendation:
During the public meeting held on June 27, 2022, the Special Assessment Commission reviewed project information and approved the special assessment list as presented. The approved list and notice of this hearing were published in accordance with N.D.C.C. 40-23-10, and letters were sent to property owners within the district. The following revisions are reflected in the attached assessment list:

1. Assessment was removed from a parcel that is considered a no-build green space.
2. Due to a recent property "split" 7 parcels on the assessment list were inactivated and 9 parcels were created. The new parcels were added and assessed in accordance with the methodology approved by the Special Assessment Commission on June 27, 2022.
3. Due to a recent property "split" a parcel was inactivated and 30 new parcels were created. The new parcels were added and assessed in accordance with the methodology approved by the Special Assessment Commission on June 27, 2022.
4. Due to a recent property "split" a parcel was created from two parcels that were inactivated. The new parcel was added and assessed in accordance with the methodology approved by the Special Assessment Commission on June 27, 2022.
5. Two parcels are considered "platted, but not in an established neighborhood. After further review, staff has determined these properties are considered within an established neighborhood. They have been recategorized with revised assessments according to the methodology approved the Special Assessment Commission on June 27, 2022.
6. Five parcels have vacant lots that are zoned/purposed for multi-family dwellings. Staff is recommending these parcels received a reduction factor to offset the maximum unit density based on assessable acres.
7. Due to a recent property "split" a parcel was inactivated and 5 parcels were created. The new parcels were added and assessed in accordance with the methodology approved by the Special Assessment Commission on June 27, 2022.

These (7) revisions are shown in the attached maps and resulted in the cost per equivalent unit (EU) to increase from $2,987.30(as presented on June 27, 2022) to $3,018.29 (presented in this packet).
